SUMMARY

Computer Science undergraduate at **IIIT Sri City** with a CGPA of **8.16**, possessing strong foundations in **Data Structures & Algorithms**, **Machine Learning**, **Deep Learning**, and **Generative AI**. Experienced in building projects involving **Full-Stack Development**, **Computer Vision**, and **AI-powered applications** using modern technologies and frameworks. Solved **150+ LeetCode problems** across arrays, strings, linked lists, trees, and graphs, demonstrating strong problem-solving and analytical skills. Strong grasp of **Backend Development**, APIs, databases, and **Full-Stack Engineering Fundamentals**.

EDUCATION

Indian Institute of Information Technology, Sri City, Tirupati, AP <i>B.Tech - Computer Science and Engineering</i>	6/2026 – Present <i>CGPA: 8.16</i>
Sri Chaitanya Junior College, vijayawada, Andhra Pradesh <i>MPC - IIT</i>	06/2022 – 06/2024 <i>Percentage: 98.6</i>
ZPHS kamepalli, Kamepalli, Andhra Pradesh	06/2020 – 04/2022 <i>GPA: 10/10</i>

PROJECTS

- Eco Life** 📄 *A resource usage and impact analysis platform* 01/2026 – 5/2026
- Developed a full-stack role-based web application using **HTML, CSS, JavaScript, Node.js, Express.js, NestJS, and REST APIs** following Agile methodology with sprint planning and project tracking through **JIRA**.
 - Implemented **Role-Based Access Control (RBAC)**, CRUD operations, frontend-backend integration, DTO validation, and Swagger API documentation using a modular **NestJS** architecture.
 - Designed system components including **Figma prototypes**, UML diagrams, ER diagrams, and database schemas to ensure scalable and structured application development.
- Turing Machine Simulator** 📄 *A step-by-step visual simulator modelling Turing Machine computation*
- Built an interactive simulator (**HTML, CSS, JavaScript**) that loads predefined Turing Machines, accepts custom input strings, and executes them step by step — visualizing tape head movement, current state, and transition rules in real time.
 - Supports multiple TM variants including $a^n b^n$, $wc w^R$, and **even-1s** recognizers; deployed on [Vercel](#), making abstract Theory of Computation concepts interactive and accessible.

SKILLS & ACCOMPLISHMENTS

- Technical Languages:** C, Java, Python, JavaScript.
- Tools:** VS Code, Docker, MySQL, Git, Ubuntu, GitHub, Jira, Postman.
- Course Work:** DBMS, Object-Oriented Language (OOP), DSA, Operating Systems, Computer Communication Networks, System Design, Machine Learning.
- Technical Skills:** HTML/CSS, React.js, Node.js, Express.js, LLM, RAG, Full Stack Development.
- Soft Skills:** Aptitude, Reasoning, Problem Solving, Leadership, Management, Communication.

ACHIEVEMENTS & AWARDS

- State Board Topper (Class X) — **92%**
- Class XII Topper — **98.6%** at Sri Chaitanya Junior College Vijayawada
- CGPA: **8.16/10** at IIIT Sri City (First Year)

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming (Java) • Database Management Systems • Operating Systems • Computer Networks • Probability & Statistics • Computer Architecture • Discrete Structures & Matrix Algebra

LANGUAGES

English (Fluent) • Hindi (moderate) • Telugu (Fluent)
